Overview

Today's knowledge economy requires world class scientists and engineers to build national work force that is scientifically & technically strong. Academic Institutions will play major role to bring research and academics together.

About 22 Central Government Agencies are Funding Research in India and Indications shows that only 5% of Institutions in India accounted for 50% of the nearly 5,000 funded projects sanctioned to academics by Government of India's Funding Agencies

In 2007, FEE and Team Tech Foundation jointly organised an event of this kind and response was overwhelming. Due to constant request and interest from faculty members from various organisations, the organisers are announcing the workshops in four places, namely Bangalore, Coimbatore, Cochin, Hyderabad, with the support of AICTE.

The aim of the workshop is to create awareness about Funded/Sponsored Research Schemes by Government of India, Industry and other countries outside India.

Workshop Theme
